

Kepler - Bug #4705

ant change-to -Dsuite=wrp gives error

01/28/2010 10:00 AM - Oliver Soong

Status:	Resolved	Start date:	01/28/2010
Priority:	Normal	Due date:	
Assignee:	Chad Berkley	% Done:	0%
Category:	build system	Estimated time:	0.00 hour
Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	4705		
Description			
Error: ptolemy is either not a suite or wasn't downloaded correctly.			
ptolemy looks like it downloaded, svn returned no errors, and the second time I run the command, I get "The module ptolemy already exists." followed by the error.			

History

#1 - 01/28/2010 10:23 AM - Oliver Soong

Oh, this is at r22632.

#2 - 01/28/2010 11:15 AM - Sean Riddle

I get this as well with "change-to -Dsuite=kepler" at r22632.

#3 - 01/28/2010 01:16 PM - Chad Berkley

This has to do with the changes to the ptolemy module that David made last night. He is working on a resolution.

#4 - 01/28/2010 05:45 PM - Oliver Soong

This is fixed.
