Category:	interface	Estimated time:	0.00 hour
Target version:	2.4.0	Spent time:	0.00 hour
Bugzilla-Id:	4711		
Description In a clean checkout under Windows, I'm now seeing the kar files listed in the left hand actor tree. I see -Actors -ANOVA,kar ANOVA I would expect to see +Actors ANOVA It would be nice to not display the ANOVA,kar nodes for kar files that only contain actors.			

History

#1 - 06/13/2012 07:15 PM - Daniel Crawl

I fixed the display name to use "Name.kar" instead of "Name,kar". The actor kars were reorganized a long time ago into a single kar file.

#2 - 03/27/2013 02:27 PM - Redmine Admin

Original Bugzilla ID was 4711
