Semtools - Bug #4777

Ontology Browser - show only search matches in the tree

02/08/2010 04:35 PM - ben leinfelder

Status:	Resolved		**Start date:**	02/08/2010
Priority:	Normal		**Due date:**

Target version:	Unspecified		**Spent time:**	0.00 hour
Bugzilla-Id:	4777			

Description

Searching for a match highlights and expands the tree to show the matches, but should also filter out non-matches.

Double points for doing this in realtime (ajaxy-ish)

I have the tree filtering for the searches now.
When no search term is entered, the tree resets itself (might want a dedicated reset?)

#2 - 02/10/2010 06:07 PM - ben leinfelder

doing this in the "realtime ajaxy" style might be very resource intensive - especially as the number and size of the ontologies grow.
