

## Kepler - Bug #4831

### Kepler (trunk) couldn't save a workflow to a remote repository as kar file

02/24/2010 12:41 PM - Jing Tao

<b>Status:</b>	Resolved	<b>Start date:</b>	02/24/2010
<b>Priority:</b>	Normal	<b>Due date:</b>

<b>Category:</b>	core	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	Unspecified	<b>Spent time:</b>	0.00 hour
<b>Bugzilla-Id:</b>	4831		

#### Description

On Kepler(trunk):

1. Open the eml-simple-plot.moml file.
2. Select my host as a saving destination (click source button).
3. Click Save Archive.
4. Get an error:

```
[run] org.kepler.objectmanager.repository.RepositoryException: java.rmi.RemoteException: <?xml version="1.0"?><error>doctype not allowed in content.</error>
```

```
[run]
```

```
[run] at org.kepler.objectmanager.repository.EcogridRepository.put(EcogridRepository.java:212)
```

```
[run] at org.kepler.kar.UploadToRepository.uploadMetadata(UploadToRepository.java:154)
```

```
[run] at org.kepler.gui.kar.ComponentUploader.upload(ComponentUploader.java:119)
```

```
[run] at org.kepler.gui.kar.ExportArchiveAction.actionPerformed(ExportArchiveAction.java:359)
```

However, on kepler 2.0 branch, it DOES work. So somebody may change the kar file format recently on trunk.

#### History

##### #1 - 02/25/2010 11:37 AM - Jing Tao

I just tried and it works.
