

Metacat - Bug #4834

Request to modify document redirects to registry home after login

02/24/2010 01:39 PM - Jim Regetz

Status:	Resolved	Start date:	02/24/2010
Priority:	Normal	Due date:	
Assignee:	Michael Daigle	% Done:	0%
Category:	registry	Estimated time:	0.00 hour
Target version:	1.9.2	Spent time:	0.00 hour
Bugzilla-Id:	4834		
Description			
<p>The "Revise document" notification emailed to document submitters currently contains a URL that looks something like this:</p> <p>http://esa-dev.nceas.ucsb.edu/esa/cgi-bin/register-dataset.cgi?stage=modify&cfg=esa&docid=esa.65</p> <p>This redirects to the login page if the user is not already logged in, which makes sense. However, after logging in, the user gets dumped back at the home page rather being presented with the requested page.</p> <p>Not sure if this issue is specific to ESA.</p>

try to fix in 1.9.2

#2 - 03/11/2010 01:15 PM - Michael Daigle

After system installation and configuration, the admin user remains logged in. This seems to confuse the registry code regarding login status.

Changed metacat to log the admin user out once the system is configured.
