Target version:	1.9.2	Spent time:	0.00 hour
Bugzilla-Id:	4839		

Description

The "revise document" notification that gets sent to ESA moderators after requesting a revision contains a URL like this:

<http://esa-dev.nceas.ucsb.edu/esa/cgi-bin/register-dataset.cgi?stage=modify&cfg=esa&docid=esa.65>

It probably shouldn't specify stage=modify, because the moderator is unlikely to want to modify the document at this point. A simple view action for the document would be more appropriate.

Alternatively, it would probably be sufficient to omit the URL altogether, and instead just indicate the docid and include a link to the ESA registry home page as a convenience.

History

#1 - 03/01/2010 04:15 PM - Michael Daigle

Removed the urls in moderator and user emails and instead put in a link to the server and instructions how to view the document.

#2 - 03/27/2013 02:28 PM - Redmine Admin

Original Bugzilla ID was 4839
