

Metacat - Bug #4841

Review page for new data registration omits spatial/temporal info

02/24/2010 03:57 PM - Jim Regetz

Status:	Resolved	Start date:	02/24/2010
Priority:	Normal	Due date:

Target version:	1.9.2	Spent time:	0.00 hour
Bugzilla-Id:	4841		
<b>Description</b> Both for the ESA and NCEAS data registries, information entered in the temporal coverage and spatial coverage sections does <b>not</b> appear on the review page that appears after submitting the initial registration form. This seems like an oversight, as all other fields on the form are presented for review.

fix in 1.9.2

#2 - 03/10/2010 02:55 PM - Michael Daigle

The confirmData.tmpl script was looking at module.temporal and module.spatial properties from esa.properties. These should have been modules.temporal and modules.spatial.
