Changes as decided upon at the Sevilleta EML meeting, April 24-25, 2002:
Responsible: Matt

- 1) Rename to eml-dataObject
- 2) incorporate packaging changes

History

Renamed module and root element as per (1). Also removed an unneeded level of hierarchy in the model. Complete except for packaging changes.

Renamed, but then removed as this object became "inline" in distribution.
Changes completed and in CVS. FIXED.
