Kepler - Bug #4873

Actors in repository library subtree are crammed together

03/09/2010 03:53 PM - Chad Berkley

Bugzilla-Id:	4873			

Description

On Windows XP (maybe on other versions of windows) the actor icons are crammed tightly together when you open up Actors-2_0/CoreActors,kar or the other yellow repositories. They should be spaced similarly to the mac.

History

#1 - 03/10/2010 04:55 PM - Aaron Aaron

I've added 2 pixels to the rowHeight of the AnnotatedPTree class. Now it would be nice to toggle this based on OS...

#2 - 03/11/2010 10:32 AM - Chad Berkley

You probably know this, but you can use System.getProperty("os.name"); to fine the current OS for switching stuff like this.

#3 - 03/11/2010 01:21 PM - Aaron Aaron

Roger that, works well, closing.
