

Semtools - Bug #4889

Compound Search UI

03/17/2010 04:00 PM - ben leinfelder

Status:	Resolved	Start date:	03/17/2010

Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	4889		
Description			
Place-holding bug for work done on the search interface. Initially there was a single screen for specifying Entity/Characteristic/Standard/Protocol. Now you can have n-of these groups. Next the AND/OR needs to actually work.

Include Context relationship searching. This needs to be added to the SMS AnnotationManager

#2 - 03/17/2010 04:48 PM - ben leinfelder

Another recommendation: do away with AND/OR confusion and use the search results ranking to indicate how closely the query was matched: AND are ranked higher because more criteria are matched.

#3 - 03/31/2010 07:54 AM - ben leinfelder

Consensus was to abandon this UI in favor of the iTunes-esque UI
