

Metacat - Bug #4904

NCEAS Projects list is missing from registry form dropdown

Description

On the NCEAS data registry form, the dropdown menu for "NCEAS Project(s)" only has a small number of what appear to be placeholder entries, rather than the complete set of NCEAS projects.

I have a vague memory (which could be wrong) of this happening after a previous Metacat upgrade.

Daigle fixed this (I think by adding the admindb password?), but I'm not sure if this step got added to the config notes to make sure it doesn't happen again next go-around. Whoever can confirm that can also close this bug.

Yes, it is point 3 under Common Problems and Issues on the KNB maintenance page:

http://help.nceas.ucsb.edu/Metacat_and_KNB_Web_Maintenance.

Closing as fixed.
