Kepler - Bug #4912

File => New Workflow => FSM Model and Modal Model don't work

03/29/2010 05:37 PM - Derik Barseghian

Status:	Resolved		**Start date:**	03/29/2010
Priority:	Normal		**Due date:**

Target version:	wrp-modules-2.0.0		**Spent time:**	0.00 hour
Bugzilla-Id:	4912			

Description

Trying to open a new blank FSM Model or Modal Model from the Kepler File menu doesn't work in trunk (it does work in the 2.0 branch).

FSM Model gives an exception, and then opens the xml as text, and Modal Model just opens the xml as text.

History

#1 - 04/13/2010 04:22 PM - Daniel Crawl

This occurs when using the wrp suite since the tagging module overrides BasicGraphController and gets a class cast exception on line 509. In addition to fixing this problem, the changes to BasicGraphController should really be folded into ptolemy.

#2 - 04/14/2010 04:02 PM - Sean Riddle

Fixed in r23688
