Description

File => Save Archive works on the 2.0 branch, but on trunk I'm getting an error (both in wrp and kepler suites):

ptolemy.kernel.util.IllegalActionException: Cannot find class: bleh
Because:
-- /Users/derik/dev2/kepler.modules.wrp/wrp/bleh.xml (No such file or directory)
-- XML file not found relative to classpath.
-- /Users/derik/dev2/kepler.modules.wrp/wrp/bleh.xml
/Users/derik/dev2/kepler.modules.wrp/wrp/bleh.xml (No such file or directory)
in file:/Users/derik/dev2/kepler.modules.wrp/wrp/ at line 1 and column 61

History

#1 - 03/30/2010 03:10 PM - Sean Riddle

I just started getting this as well. It results in an inability to instantiate composites returned from remote repositories.

#2 - 04/02/2010 12:59 PM - Derik Barseghian

I'll take a look...looks like the error is coming out of the call to parser.reset() in ActorMetadata lookForMoml

#3 - 04/02/2010 01:17 PM - Derik Barseghian

After r23539 this is now a problem in 2.0 as well. Retargeting.

I'm guessing the r23539 (2.0) changes to ActorMetadata are the same as those in r 23499, which was a cleanup/refactor. Aaron, is this refactor necessary for 2.0?

Correction to comment#2: error's coming out of parser.parse call in lookForMoml, not parser.reset.

#4 - 04/02/2010 01:48 PM - Derik Barseghian

Aaron thinks this may be tied into work on ActorMetadata necessary for bug#4767. Reassigned to him.

#5 - 04/05/2010 04:09 PM - Aaron Aaron

I tried rolling back the refactor of ActorMetadata and was still getting this error, must be something else...

#6 - 04/05/2010 05:03 PM - Aaron Aaron

oops, sorry it was the refactor, I had parameters to a new function backwards. It's good now.
