

Kepler - Bug #4930

Failing to download a dependent module still indicates success

04/05/2010 05:10 PM - Sean Riddle

<b>Status:</b>	New	<b>Start date:</b>	04/05/2010
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	David Welker	<b>% Done:</b>	0%
<b>Category:</b>	build system	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	Unspecified	<b>Spent time:</b>	0.00 hour
<b>Bugzilla-Id:</b>	4930		
<b>Description</b>			
If one attempts to download module dependencies of a broken KAR by right-clicking and selecting "Import Dependent Modules," and the module is not found, a message ("Error downloading module: xxxxxxx") is produced. Following this, the message "Module Download Complete. You may need to restart Kepler for full functionality" is produced. A different message, reflecting this failure, should probably be produced instead.
