

Kepler - Bug #4981

RIO pdfs don't show up in the Component Library

05/06/2010 04:33 PM - Derik Barseghian

Status:	In Progress	Start date:	05/06/2010
Priority:	Normal	Due date:	
Assignee:	Derik Barseghian	% Done:	0%
Category:	reporting	Estimated time:	0.00 hour
Target version:	reporting-2.X.Y	Spent time:	0.00 hour
Bugzilla-Id:	4981		
Description			
If you create a workflow and a simple report, execute, export the run to a local repository, then expand the kar in the Components Library, no item shows representing the pdf.

History

#1 - 06/07/2010 02:51 PM - debi staggs

Re-targeting for now, based on our discussion during the REAP meeting today.

#2 - 02/04/2011 03:26 PM - Derik Barseghian

Adding dependency on bug#5276, since whatever we decide to do for that bug will likely affect / possibly fix this bug.
