Description

On Windows XP I have problems with workflows that have paths like 03-ImageDisplay.xml. I think this is an issue with the use of property("DEMODIR") which returns c:Documents and SettingsDerik/KeplerData/Kepler-2.0-Demos/demo (note the two missing slashes near the start)

Jianwu also notes an additional problem with DEMODIR:

I also found a typo for DEMDIR, which assume the dir is ***/Kepler-2.0-Demos**, but the actual installation dir is ***/Kepler-2.0.0-Demos** (double zero)

History

#1 - 05/13/2010 02:54 PM - Derik Barseghian

fixed at r24398(2.0) and r24396 (trunk)
