<b>Target version:</b>	Unspecified	<b>Spent time:</b>	0.00 hour
<b>Bugzilla-Id:</b>	4989		
<b>Description</b>			
The installer should offer to start Kepler upon completion so that the user does not have to go digging for it. See ptII8.0/adm/gen-8.0/ptII8_0_1_setup_windows.xml

Fixed.

The user is now prompted as to whether they want to start up Kepler as part of the installation process.

I added ProcessPanel.spec.xml and userInputSpec.xml.  
build-area/resources/installer/windows/izpack.ftl was updated.
