

Morpho - Bug #5046

wrong text label for attributeOrientation in xsl

06/10/2010 09:47 AM - Jim Regetz

Description

Open jscientist.7.2 in Morpho and look at the entity metadata panel on the right. Under Physical Structure Description, it says that the Maximum Record Length is 'column', but column is actually the attributeOrientation.

Looks like this was a copy-and-paste error in the eml-physical-*.xsl files (all versions back to EML 2.0.0). The HTML text is "Maximum Record Length" inside two different xsl:templates: one that matches maxRecordLength, and one that matches attributeOrientation. In the second case, the text should probably read "Attribute Orientation" instead.

History

#1 - 06/10/2010 10:21 AM - ben leinfelder

changed it in the 2.0/2.0.1/2.1.0 style sheets in Morpho and also in the EML project (for future releases). Change will show up in next Morpho release.
