#### Description

Under Windows Server 2003, I was building the devel tree as per the instructions at

<https://kepler-project.org/developers/reference/kepler-and-eclipse>

and I got:

Invalid archive:

src/lib/swing-workers-license.htm

src/lib/ptll.properties.in

#### History

I believe the bug is because of an extra space in one line of Eclipse.java. Now (at version 25232) ptll.properties.in, ptll.properties and swing-workers-license.htm will not included in .classpath of ptolomy module.
