#### Description

When inserting an xml document that was not well formed into the database, the servlet returned the following error:

```
fatal processing error
<?xml version="1.0"?>
<success>
<docid></docid>
</success>
```

The error should indicate that the document is not well formed and should not indicate "success".

#### History

##### #1 - 01/03/2001 10:44 AM - Chad Berkley

this bug is no longer reproducible. It may have been fixed inadvertently.

##### #2 - 03/27/2013 02:13 PM - Redmine Admin

Original Bugzilla ID was 51
