

Metacat - Bug #51

adding a non-well-formed document results in a "success" message

08/07/2000 03:06 PM - Chad Berkley

Status:	Resolved	Start date:	08/07/2000
Priority:	Normal	Due date:

Target version:	Beta2	Spent time:	0.00 hour
Bugzilla-Id:	51		

Description

When inserting an xml document that was not well formed into the database, the servlet returned the following error:

```
fatal processing error
<?xml version="1.0"?>
<success>
<docid></docid>
</success>
```

The error should indicate that the document is not well formed and should not indicate "success".

History

#1 - 01/03/2001 10:44 AM - Chad Berkley

this bug is no longer reproducible. It may have been fixed inadvertently.
