

Kepler - Bug #5120

Provide a toggle for automatic updates

08/04/2010 12:08 PM - Sean Riddle

Status:	New	Start date:	08/04/2010
Priority:	Normal	Due date:	
Assignee:	David Welker	% Done:	0%
Category:	build system	Estimated time:	0.00 hour
Target version:	2.0.0	Spent time:	0.00 hour
Bugzilla-Id:	5120		
Description			
Add a menu option that allows the user to toggle between automatic checking for updates at startup and not.

David implemented a toggle for checking for patches on startup, should this be closed now? Was a conclusion reached wrt if the user should be able to be prompted for minor and major updates? I think most other software prompts for minor updates too
