

Kepler - Bug #5206

Importing or opening a sensor site doesn't open into the sensor site view

10/18/2010 05:16 PM - Derik Barseghian

Status:	Resolved	Start date:	10/18/2010
Priority:	Normal	Due date:	
Assignee:	Daniel Crawl	% Done:	0%

Target version:	sensor-view-0.9.0	Spent time:	0.00 hour
Bugzilla-Id:	5206		
Description			
Importing or opening a saved sensor site doesn't necessarily change your set of views to Sensor Site and Plot Designer, they often open into the Workflow Editor. Also, if you have a workflow open, an imported sensor site will be placed into this workflow; it should probably be a new window.

Blocks Kepler - Bug #4744: load & save site layout to local kar file		Resolved	02/05/2010

History

#1 - 10/26/2010 02:23 PM - Daniel Crawl

Importing a sensor site now creates a new window and uses the EV model type. It also appears to be correctly setting the EV model type in the saved KAR, but opening the KAR creates the workflow editor window. I think the problem is in ActorMetadataKAREntryHandler.open(): it assumes everything uses PtolemyEffigies.

#2 - 10/26/2010 02:26 PM - Daniel Crawl

The remaining problem (opening KAR into workflow editor) is in 4744.
