Target version:	1.8.1	Spent time:	0.00 hour
Bugzilla-Id:	5209		
Description			
For columns defined as dateTime, the Tree Editor is launched when there are min/max bounds specified in the metadata. The attribute wizard page should be displayed instead.			

History

#1 - 11/04/2010 10:28 AM - ben leinfelder

We were not removing the min/max values from the map when setting the values for the wizard editing screen so it would fall back on the tree editor. Now setting and removing these values correctly and the wizard opens as expected.
