

Metacat - Bug #5244

ldapweb.cgi shouldn't report ou=Account accounts since they're unusable

11/16/2010 06:09 PM - Shaun Walbridge

Status:	Resolved	Start date:	11/16/2010

Target version:	2.0.0	Spent time:	0.00 hour
Bugzilla-Id:	5244		

Description

Because of security considerations, we can't allow users to reuse their credentials from ou=Account, which is where we create the majority of accounts for Plone and SVN. However, when trying to show users other accounts which are the same, we show these accounts, confusing new users.

As a temporary fix, filter out the ou=Account from accounts when making suggestions.

History

#1 - 11/16/2010 06:11 PM - Shaun Walbridge

A quick fix in 5650 for this issue, just filtering based on strings. Need to test this, but the development environment is currently broken, will chat to the maintenance tzars to get this working again so we can fix & close this one.

#2 - 10/26/2011 03:59 PM - Matt Jones

Need to check with Shaun if this is actually fixed.

#3 - 12/08/2011 04:10 PM - ben leinfelder

Used Jing's test server to verify that ou=Account entries were not shown.
