

Kepler - Bug #5251

using File->Open MoML... always opens model into Sensor Site view

12/02/2010 11:28 AM - Derik Barseghian

<b>Status:</b>	Resolved	<b>Start date:</b>	12/02/2010

<b>Target version:</b>	sensor-view-0.9.0	<b>Spent time:</b>	0.00 hour
<b>Bugzilla-Id:</b>	5251		
<b>Description</b>			
If in the sensor-view suite I open a regular xml model, e.g. 00-StatisticalSummary.xml, using the File->Open MoML... menu item, the new window is in the the Sensor Site view, with filtered component tree. It should just open into the Workflow view. This is on mac and linux at r26412.			

History

#1 - 01/31/2011 02:28 PM - Sean Riddle

Fixed in r26872.

Note: This is fixed with an override of the class org.kepler.kar.handlers.ActorMetadataKAREntryHandler from core.

An alternative approach would be to add another KAREntryHandler, but the problem is that the entities involved (normal workflows and sensor view workflows) are not distinguishable at the KAREntryHandler dispatch level.
