Description To reproduce: create a workflow create a report design File-> Save to kar Tools->Workflow Scheduler Find and select this workflow. You'll be prompted to upload. Say yes, and then you'll get a warning telling you this kar doesn't have a report layout, so no run kar will be created.

The problem is when kepler evaluated the type in a kar entry, it used "equals" "ReportLayout". When we uses "contains", it works.

Derik confirmed the fix. So close the bug.
