<b>Target version:</b>	sensor-view-0.9.0	<b>Spent time:</b>	0.00 hour
<b>Bugzilla-Id:</b>	5275		

#### Description

Executing a sensor view workflow isn't supposed to record data to provenance because the director is DE.

Replicate:

start kepler

File->Import Sensor Site->From SPAN Host: gpp.msi.ucsb.edu (ping me if it's down)

Note Provenance button remains green/on

Execute workflow, run is recorded and shown in WRM

#### History

##### #1 - 01/21/2011 12:34 PM - Daniel Crawl

Should be fixed. Derik, please check.

##### #2 - 01/21/2011 01:07 PM - Derik Barseghian

Works. On import provenance turns off, and attempting to turn it back on, even during execution of sensor workflow, is disallowed -- great, closing.

##### #3 - 02/14/2011 01:45 PM - Derik Barseghian

changing bugs from REAP to Kepler product

##### #4 - 03/27/2013 02:29 PM - Redmine Admin
