

Kepler - Bug #5284

Set uploadToServer to be true at configuration.xml

01/28/2011 09:37 AM - Jing Tao

Status:	New	Start date:	01/28/2011
Priority:	Normal	Due date:

Target version:	reporting-2.X.Y	Spent time:	0.00 hour
Bugzilla-Id:	5284		
Description			
When we set up kepler run engine, we always have to change the value from false to true. Why we set it to be false? I think user always wants to upload the run kar file to the repository when they pass the repository name to the kepler.
