

Kepler - Bug #5296

Workflow Run Manager - multiple window, remote store gui refresh issue

02/07/2011 12:09 PM - Derik Barseghian

Status:	Resolved	Start date:	02/07/2011
Priority:	Normal	Due date:	
Assignee:	Derik Barseghian	% Done:	0%
Category:	workflow run manager	Estimated time:	0.00 hour
Target version:	reporting-2.3.0	Spent time:	0.00 hour
Bugzilla-Id:	5296		
Description			
If you have two windows open, and in both connect the WRM to the same remote repository using the dropdowns in rapid succession, the second window WRM will eventually show the remote runs, but the first will not. The first window will show them if you do anything with the search cells, or hit the refresh button, but not initially.
