

Kepler - Bug #5315

Sensor Site view Components only filtered when All Ontologies and Folders selected

02/18/2011 04:07 PM - Derik Barseghian

Status:	Resolved	Start date:	02/18/2011
Priority:	Normal	Due date:	
Assignee:	Derik Barseghian	% Done:	0%
Category:	sensor-view	Estimated time:	0.00 hour
Target version:	sensor-view-0.9.0	Spent time:	0.00 hour
Bugzilla-Id:	5315		
Description			
When in Sensor Site view, non-applicable components are filtered out of the tree. However if you use the drop-down to change from All Ontologies and Folders to Components or Actors, the lists are not filtered.			

History

#1 - 02/18/2011 05:05 PM - Derik Barseghian

Also:

- if you save your site layout, this refreshes the Components tree, and everything becomes visible.
- if you use the Sources Components Build button, everything becomes visible.
- not showing the MyWorkflows dir in the filtered list is problematic, as this is where people will likely save their layout kars

#2 - 03/29/2011 03:22 PM - Derik Barseghian

no longer an issue at r27382; no longer filtering the tree.
