<b>Target version:</b>	sensor-view-0.9.0	<b>Spent time:</b>	0.00 hour
<b>Bugzilla-Id:</b>	5323		
<b>Description</b>			
I believe all Sensor actor parameters are only supposed to be editable when the workflow is running. If you import a site layout, this is true. However once you save the workflow as either kar or xml, post-save all params are editable.			

#### History

---

##### #1 - 03/03/2011 03:10 PM - Daniel Crawl

A parameter's visibility is not stored to MoML so I added an extra check in attributedChanged to make sure a parameter is not editable unless the actor is running.
