Kepler - Bug #5331

Errors in Help->Kepler Documentation page at kepler 2.2 rc3.

03/01/2011 11:23 AM - jianwu jianwu

Status:	Resolved		**Start date:**	03/01/2011
Priority:	Normal		**Due date:**	
Assignee:	David Welker		**% Done:**	0%
Category:	general		**Estimated time:**	0.00 hour
Target version:	2.2.0		**Spent time:**	0.00 hour
Bugzilla-Id:	5331			

Description

Two errors in the page:
1) The user mailing list at the end of the first paragraph should be kepler-users@kepler-project.org, not kepler-users@ecoinformatics.org.
2) contributors after 2007-09-25 are not included.

History

#1 - 03/01/2011 02:06 PM - David Welker

Got these two errors in documentation fixed. Thanks for catching!

#2 - 03/01/2011 02:58 PM - jianwu jianwu

I found another error in this page, where says:

Workflow Demonstration Examples
Note that the demos are not included in the default developers build. To download the demos, run:
cd build-area
ant get -Dmodule=outreach

----
1) I saw outreach module is in installer (Kepler-2.2rc3\outreach-2.2.0). Why it says 'not included'?
2) The installer will not have build file in build-area, so 'ant get -Dmodule=outreach' command won't work.

#3 - 03/01/2011 04:28 PM - David Welker

Removed the inapplicable comments about outreach.

#4 - 03/27/2013 02:30 PM - Redmine Admin
