# Kepler - Bug #5352

## build-area-2.1 is not working and build-area-2.2 is needed for kepler-2.2 release.

### Description

I didn't see build-area-2.2 module for kepler-2.2 at https://code.kepler-project.org/code/kepler/releases/release-branches/ or https://code.kepler-project.org/code/kepler/releases/released/. When I tried to use https://code.kepler-project.org/code/kepler/releases/release-branches/build-area-2.1/, I got the following exception. Since kepler trunk is ever changing, we'd better have a build-area-2.2 module for kepler 2.2 release.

kepler:build-area-2.1 jianwu$ svn info

## History

**#1 - 03/15/2011 03:38 PM - David Welker**

Nice catch.

I have added a build-area-2.2.

For the problem with the build-area-2.1, you simply have to rename build-area-2.1 to "build-area" instead of keeping the name as "build-area-2.1." I have added documentation to this effect to the wiki,

Closing.

**#2 - 03/15/2011 04:54 PM - jianwu jianwu**

The new build-area-2.2 seems have problem to check out ptolemy. Here is the error I got when I first use 'ant change-to -Dsuite=kepler-2.2' after build-area check out. It tries to check out two version of ptolemy.

[change-to] ptolemy-8.1:
[change-to] Downloading ptolemy-8.1...
[change-to] svn co -r head http://code.kepler-project.org/code/kepler/releases/release-branches/ptolemy-8.1
/Users/jianwu/Kepler/repository/kepler/kepler-branch-2.2/ptolemy-8.1
[change-to] A    /Users/jianwu/Kepler/repository/kepler/kepler-branch-2.2/ptolemy-8.1/lib
....
[change-to] A    /Users/jianwu/Kepler/repository/kepler/kepler-branch-2.2/ptolemy-8.1/module-info/licenses.txt

[change-to] A    /Users/jianwu/Kepler/repository/kepler/kepler-branch-2.2/ptolemy-8.1/module-info/revision.txt
[change-to] Checked out revision 27294.
[change-to]
[change-to] ptolemy revision: 60245
[change-to] svn co -r 60245 svn://source.eecs.berkeley.edu/chess/ptII/trunk /Users/jianwu/Kepler/repository/kepler/kepler-branch-2.2/ptolemy-8.1/src
[change-to] svn: '/Users/jianwu/Kepler/repository/kepler/kepler-branch-2.2/ptolemy-8.1/src' is already a working copy for a different URL
[change-to]
