

Kepler - Bug #5418

Build System resets modules.txt during update

05/31/2011 05:56 PM - Sven Koehler

Status:	Resolved	Start date:	05/31/2011
Priority:	Normal	Due date:	
Assignee:	Derik Barseghian	% Done:	0%
Category:	build system	Estimated time:	0.00 hour
Target version:	2.4.0	Spent time:	0.00 hour
Bugzilla-Id:	5418		
Description			
During an 'ant update' all changes a user made to modules.txt in the build-system are lost. Although this may be wanted if a suite changes, the old content should not be lost and the manual changes should be merged in the new modules.txt.
