

Kepler - Bug #5430

problems with multiple instances of kepler

06/24/2011 05:51 PM - Derik Barseghian

Status:	Resolved	Start date:	06/24/2011
Priority:	Normal	Due date:	
Assignee:	Derik Barseghian	% Done:	0%
Category:	core	Estimated time:	0.00 hour
Target version:	2.3.0	Spent time:	0.00 hour
Bugzilla-Id:	5430		

Description

If you start two instances of kepler running at the same time on one machine, and quit the first instance, the second instance will begin having problems like being unable to search the Components library, unable to instantiate new components, etc. It appears the connection to the database is closed.
