

Kepler - Bug #5449

Running ant should include instructions about updating kepler-tasks.jar

08/04/2011 02:07 PM - Christopher Brooks

Status:	Resolved	Start date:	08/04/2011
Priority:	Normal	Due date:	
Assignee:	David Welker	% Done:	0%
Category:	build system	Estimated time:	0.00 hour
Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	5449		

Description

When the ant command is run without arguments, a help message is produced.

That help message should display the description for upgrade-kepler-tasks, which now says:

Upgrade the kepler-tasks.jar used by the module-manager module. To update lib/kepler-tasks.jar, run ant -f kepler-tasks.xml.

History
