Description

User reports eclipse problem wrt ptolemy classpath missing jars. I verified the fix is the same as for
http://bugzilla.ecoinformatics.org/show_bug.cgi?id=5442

See about issuing patch to kepler-tasks-2.2 for this bug. The build-area-2.2 tag would also have to get the update.

Won't fix. Use 2.3. If the patch is needed for 2.2, reopen the bug only to fix it.
