Kepler - Bug #5549

Help=>Modules Documentation not working in ubuntu

11/21/2011 03:30 PM - Derik Barseghian

Status:	Resolved	**Start date:**	11/21/2011
Priority:	Normal	**Due date:**	
Assignee:	Derik Barseghian	**% Done:**	0%
Category:	documentation	**Estimated time:**	0.00 hour
Target version:	2.3.0	**Spent time:**	0.00 hour
Bugzilla-Id:	5549		

Description

If you click on e.g. reporting from Modules Documentation, you get an error that isn't helpful.
It's coming from module-manager ActiveModulesDocumentationPanel, which is not finding a browser to use to open the file.

History

#1 - 11/21/2011 05:15 PM - Derik Barseghian

Fixed at r28983 and r28984. Class now uses existing ptII BrowserLauncher instead of its own, which wasn't working. Would have been nice to use awt Desktop instead, but got the impression it might work with non-gnome *nix.
http://download.oracle.com/javase/6/docs/api/java/awt/Desktop.html#getDesktop()
