

Kepler - Bug #5578

Add DiffModules with build-area

02/27/2012 03:00 PM - dhogan dhogan

Status:	Resolved	Start date:	02/27/2012
Priority:	Normal	Due date:	
Assignee:	Derik Barseghian	% Done:	0%
Category:	build system	Estimated time:	0.00 hour
Target version:	2.4.0	Spent time:	0.00 hour
Bugzilla-Id:	5578		

Description

StatusModules excludes build-area because it isn't in modules.txt. It would be helpful to include build-area in 'ant status' so you can see all of the changes.

This patch adds build-area to StatusModules and adds DiffModules.

History

#1 - 06/12/2012 11:43 AM - Daniel Crawl

I checked-in the patch. Thanks for the contribution.

#2 - 03/27/2013 02:30 PM - Redmine Admin

Original Bugzilla ID was 5578
