

Kepler - Bug #5645

kar uploading should need user account.

08/06/2012 01:15 PM - jianwu jianwu

Status:	New	Start date:	08/06/2012
Priority:	Normal	Due date:	
Assignee:	Derik Barseghian	% Done:	0%
Category:	build system	Estimated time:	0.00 hour
Target version:	2.X.Y	Spent time:	0.00 hour
Bugzilla-Id:	5645		
Description Currently, anonymous users can upload their kars to Kepler kar repository. They could bring malicious actors and be harmful if other users download them. We should have user account management for kar upload so at least the uploads can be traced.
