<b>Bugzilla-Id:</b>	5672		

#### Description

It would be nice if the sensorview-utils-1.0.jar had a default main class target that was a simple java app that printed some simple help, showing how to invoke all contained util (we do have this explained in the sensor-view module doc):

```
java -cp sensorview-utils-1.0.jar util.SpanToDT -h
java -cp sensorview-utils-1.0.jar util.MirrorDT -h
java -cp sensorview-utils-1.0.jar org.kepler.sensor.span.SpanSim -h
```
