<b>Description</b> Multi-language extention of EML 2.1.1 is a good news for Japan LTER Network because we intend to share our data both nationally and internationally. But I18N is incomplete in EML 2.1.1 for us, so we hope that more textual elements are modified to the i18n elements, especially the following elements;  project/title eml-project.xsd: 102  method/instrumentation eml-methods.xsd: 391  geographicCoverage/geographicDescription eml-coverage.xsd: 487 taxonCoverage/commonName eml-coverage.xsd: 1283  citation/article/journal eml-literature.xsd: 294 citation/article/volume eml-literature.xsd: 308 citation/article/issue eml-literature.xsd: 320 citation/book/edition eml-literature.xsd: 424 citation/book/volume eml-literature.xsd: 435 citation/report/reportNumber eml-literature.xsd: 603
