

Metacat - Bug #5753

Implement mn.generatelIdentifier()

11/30/2012 11:03 AM - ben leinfelder

Status:	Resolved	Start date:	11/30/2012
Priority:	Normal	Due date:	
Assignee:	ben leinfelder	% Done:	0%
Category:	metacat	Estimated time:	0.00 hour
Target version:	2.0.6	Spent time:	0.00 hour
Bugzilla-Id:	5753		
Description			
I hadn't realized there wasn't any impl for this in MNodeService yet.

Yeah, this is the reason i got an error when I called the method :(

#2 - 11/30/2012 03:11 PM - ben leinfelder

There's now a very basic identifier generation method. You can pass it any scheme (ignored) and an optional fragment. If fragment is omitted, the "autogen" fragment is used. They look like this:
<fragment>.2012113011041728800

#3 - 01/31/2013 03:38 PM - ben leinfelder

This needs more attention.

#4 - 02/26/2013 10:17 AM - ben leinfelder

Metacat 2.0.6 now supports UUID (as it should have from the beginning).

#5 - 02/26/2013 10:28 AM - ben leinfelder

Current feature set (UUID) is complete. For DOI/EZID support, see related bug: [#5513](#)
