

Morpho - Bug #5757

Add identifier scheme drop down to id conflict window

12/03/2012 02:14 PM - ben leinfelder

Status:	New	Start date:	12/03/2012
Priority:	Normal	Due date:	
Assignee:	ben leinfelder	% Done:	0%
Category:	morpho - general	Estimated time:	0.00 hour
Target version:	2.1.0	Spent time:	0.00 hour
Bugzilla-Id:	5757		
Description			
In cases where we want to generate an identifier at the MN, we need to be able to tell the MN what type of identifier should be created. Usually we will target DOI, but only a handful of MNs will support this so we should have multiple options as well as a sensible default. Note that the scheme parameter for MN.generateIdentifier() is not optional.

We should consider this feature in the larger "publish" paradigm.

#2 - 01/26/2013 08:15 AM - ben leinfelder

Moving this to 2.1 where we couple it with Metacat DOI+EZID support. The window does have a drop down now, but I have it disabled and selecting the default choice for scheme.
