<b>Description</b> Everyday, when i started morpho and opened the login dialog. It shows: Orgnaization: knb -Ecoinformatics: Username: CN=Jing Tao T6470,O=DataONE Test,C=US,DC=cilogon,DC=org Password:  Actually, the Username should be "tao". It gives the wrong default username and I have to modify it.

Yeah, I think it should just be blank since we are not saving the username or organizational affiliation in the profile anymore. With CILogon we are giving people LOTS of options for who they are for authentication.  
I'll go ahead and blank out the username when the login screen appears.

now the DN will not show up in the username field.
