Target version:	2.0.0	Spent time:	0.00 hour
Bugzilla-Id:	5803		

Description

Before we release, I would like to have a tagged (stable) version of the simple-ecp-client building in hudson. Right now I am building a -SNAPSHOT off of my github repository. At the very least, this should be pulling from a tag that is not creating a -SNAPSHOT jar.

See [#5741](#) for additional background info

History

#1 - 01/31/2013 04:28 PM - ben leinfelder

The ECP client depends on shibboleth openSAML libraries that are at 3.0-SNAPSHOT. They have not released 3.0.0 yet. So...we will be cutting a release on a potentially moveable target.

#2 - 02/01/2013 02:02 PM - ben leinfelder

I tagged "0.0.2" in Github:

<https://github.com/leinfelder/simple-ecp-client/tree/simple-ecp-client-0.0.2>

Set up a stable build for ECP in Hudson:

<http://dev-testing.dataone.org:8080/hudson/job/simple-ecp-client-stable/>

And changed Morpho to pull the non-snapshot 0.0.2.jar.
