

Kepler - Bug #5838

incomplete transfer of error messages into serialized WorkflowRun xml

01/30/2013 01:34 PM - Derik Barseghian

Status:	Works For Me	Start date:	01/30/2013
Priority:	Normal	Due date:	
Assignee:	Derik Barseghian	% Done:	0%
Category:	workflow run manager	Estimated time:	0.00 hour
Target version:	reporting-2.4.0	Spent time:	0.00 hour
Bugzilla-Id:	5838		
Description			
It seems possible to export a run that has multiple error messages associated with it in provenance DB, and yet only one of these error messages makes it into the serialized WorkflowRun xml as a child of errorMessages.			

History

#1 - 03/27/2013 02:31 PM - Redmine Admin

Original Bugzilla ID was 5838

#2 - 04/08/2013 02:38 PM - Daniel Crawl

- Status changed from New to Works For Me

I tested this and can't reproduce the problem. Feel free to reopen and attach an example workflow.
