<b>Bugzilla-Id:</b>	5868		

#### Description

Here are the steps to produce the issue:

1. Use the new data package wizard and entity wizard to generate a data package.
2. Save it to network.
3. Go to File|Delete to delete the data package.
4. Morpho shows up a warning panel without any information.
5. The morpho frame does show up (It should disappear).
6. Morpho search on the network can't find the data package. It means that the data package does be removed.

When morpho delete a data package without data object, it works.

#### History

##### #1 - 02/15/2013 10:30 AM - Jing Tao

The problem is there is no null check for the id. If an id is null, the anotherId.equal(id) will have NullPointerException.

##### #2 - 03/27/2013 02:31 PM - Redmine Admin

Original Bugzilla ID was 5868
