<b>Description</b>			
Today, i created a new profile in morpho 2.0.0. I closed morpho and restart again. I saw an upgrade sign during the start process. The profile generated in Morpho 2.0 doesn't need the upgrade.

When morpho generates a new profile, it will set the id-file map to be true. So morpho will not upgrade the new profile any more.

We also fixed an issue that a newly added element may be overwritten.
